## A safe guest experience at Domus Medica

In order to ensure that we provide a safe environment for our guests at Domus Medica, we will look and feel a little different, but you can expect the same warm welcome and level of service that you are used to...

- Domus Medica will be re-opening for bed and breakfast 7 days a week from Monday 3 August
- A continental breakfast will be available to order at check in, where you will be able to book a time to have it delivered to your room or to collect it in the restaurant
- Our car park is available for guests to book if you wish to avoid public transport
- All non-essential items will be removed from bedrooms and will be available upon request should you find you need them, just ask a member of staff during your stay
- All rooms will be deep cleaned, left unoccupied for 72 hours and naturally ventilated between guests
- Our in house team will be equipped with full PPE. They are fully trained in thoroughly cleaning all rooms and high touch point areas.
- All amenity items will be recyclable or compostable, and will be disposed of after each guest
