

The Royal Society of Medicine

A safe guest experience at Domus Medica

In order to ensure that we provide a safe environment for our guests at Domus Medica, we will look and feel a little different, but you can expect the same warm welcome and level of service that you are used to...

- A continental breakfast buffet will be served in the Restaurant
- Our car park is available for guests to book if you wish to avoid public transport
- All non-essential items will be removed from bedrooms and will be available upon request should you find you need them, just ask a member of staff during your stay
- Our in house team will be equipped with full PPE. They are fully trained in thoroughly cleaning all rooms and high touch point areas.
- The Housekeeping Team will only service your room throughout your stay if requested on check-in, alternatively you can request for amenities when needed and the team will assist as needed.
